Open Ganva

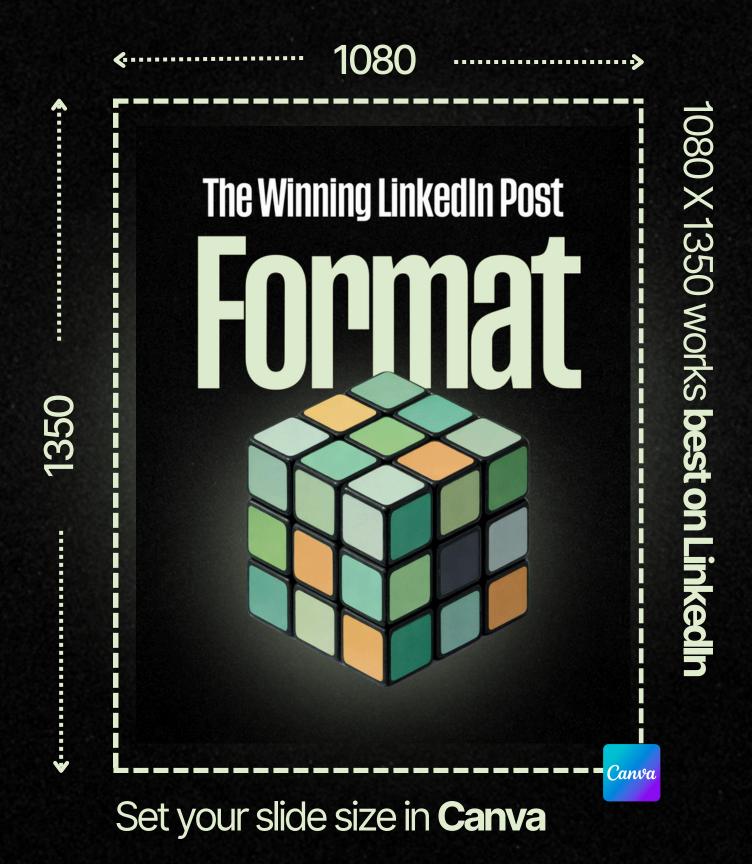

Create quality designs fast with Canva

Canva is the starting point for 90% of my Linkedln posts.

1: Set Size

1080 x 1350 pixels

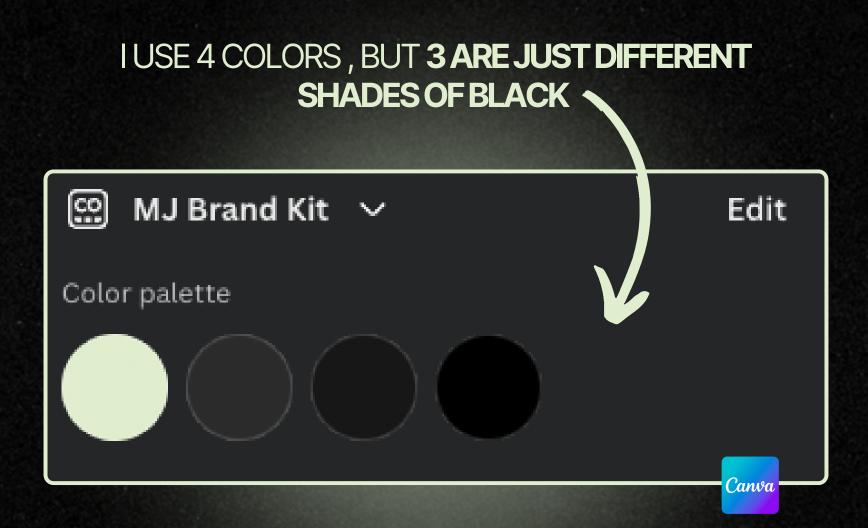

2: USE A Tall Font

Tall fonts work best on covers

3: Select 2 Golors

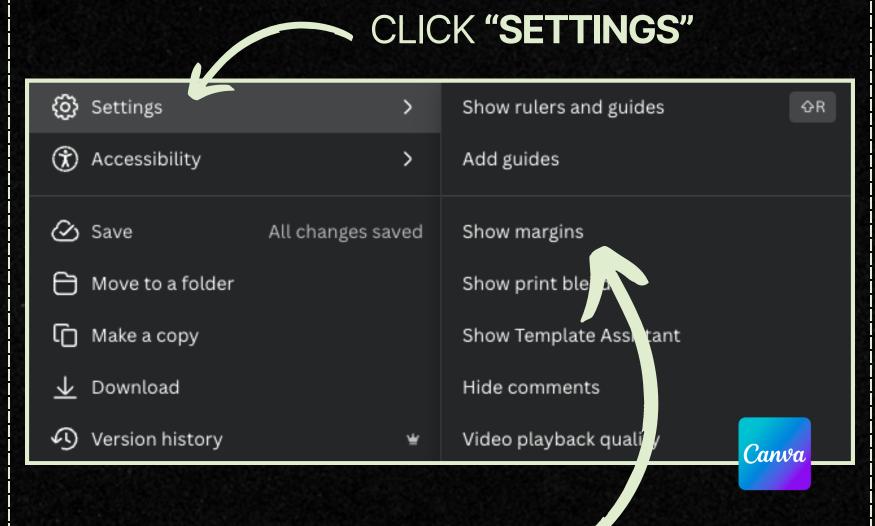

Less is more. Only 2 colors.

SIMPLE COLOR PALETTES ARE **EASIER FOR**OUR BRAINS TO PROCESS

4: Show Margins

Use "Show Margins"

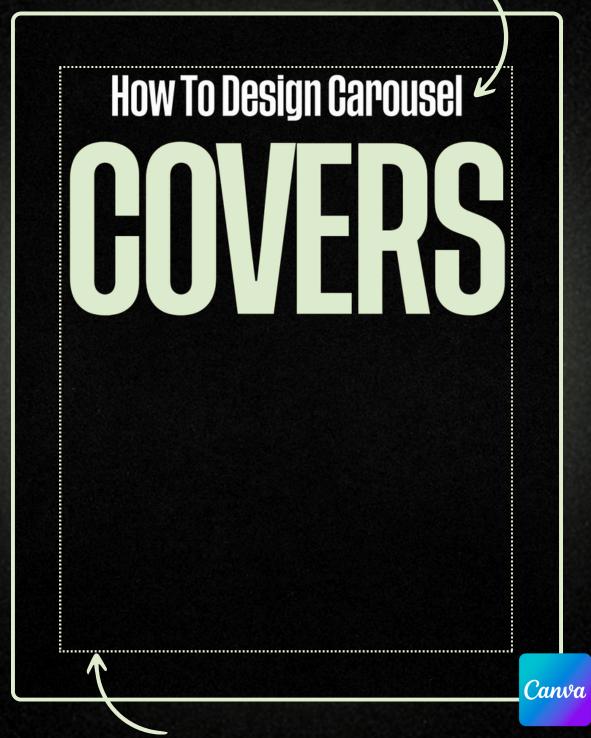

CLICK "SHOW MARGINS"

5: Position Text

Position your text at the top

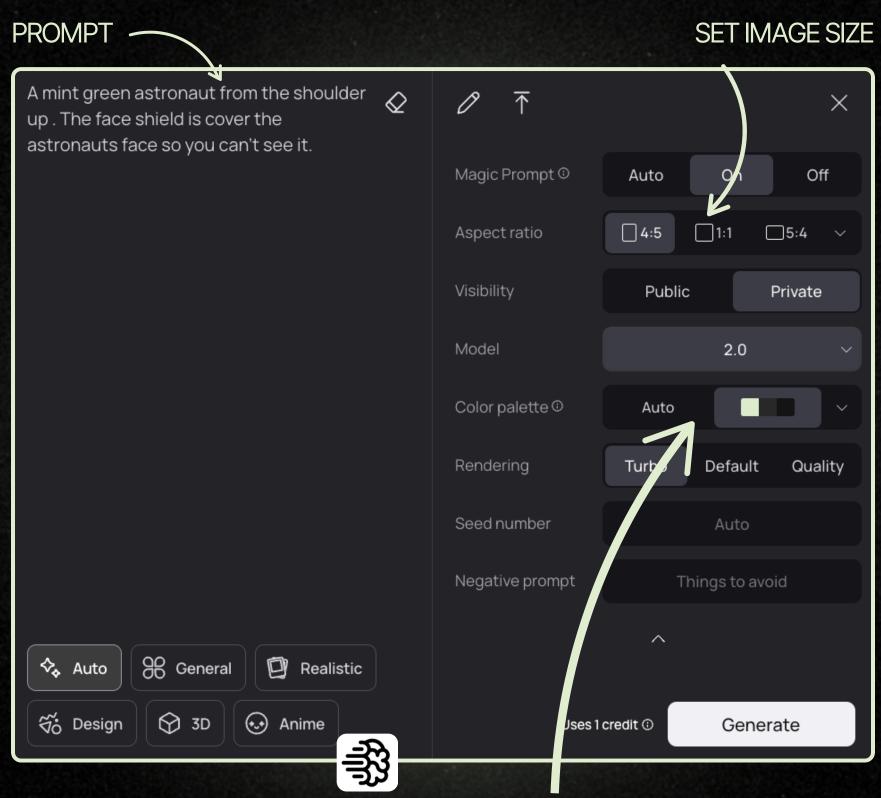

ADD TALL FONT TEXT AT THE TOP

STAY WITHIN THE MARGINS

6: Create Image

Generate image in ideogram

IMPORTANT: SET COLOR PALETTE

7: Select Image

Generate image in ideogram

Ideogram generates 4 images in each generation. I generate a few batches, then select the best image.

I generate 90% of my images with Ideogram. It's simple, fast, and intuitive. Great for efficiency.

8: Add Image

Add image to Canva

USE "BG REMOVER" TO REMOVE BACKGROUND

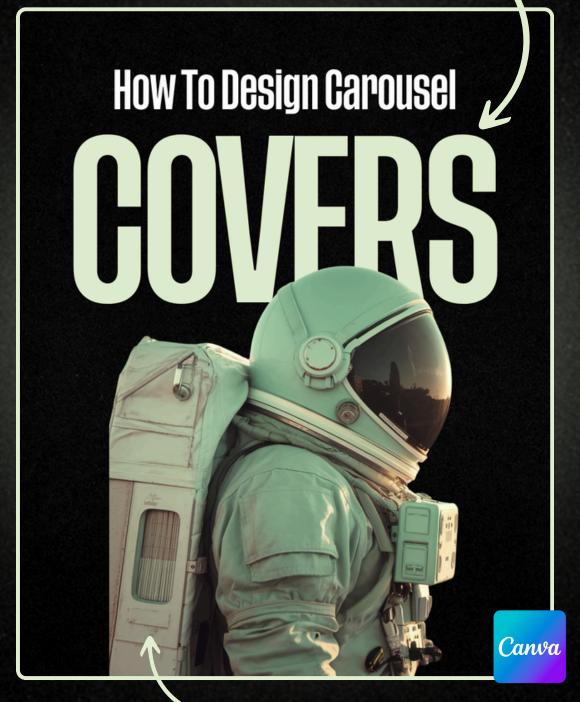

ADD IMAGE TO CANVA PAGE

9: Reposition

Position your text at the top

POSITIONING THE IMAGE IN FRONT OF THE TEXT CREATES A **LAYERED LOOK**

THE IMAGE CAN EXPAND OUTSIDE OF THE MARGIN

10: Polish

Add a background element

Final Product

An eye-catching cover
