Digital Printing

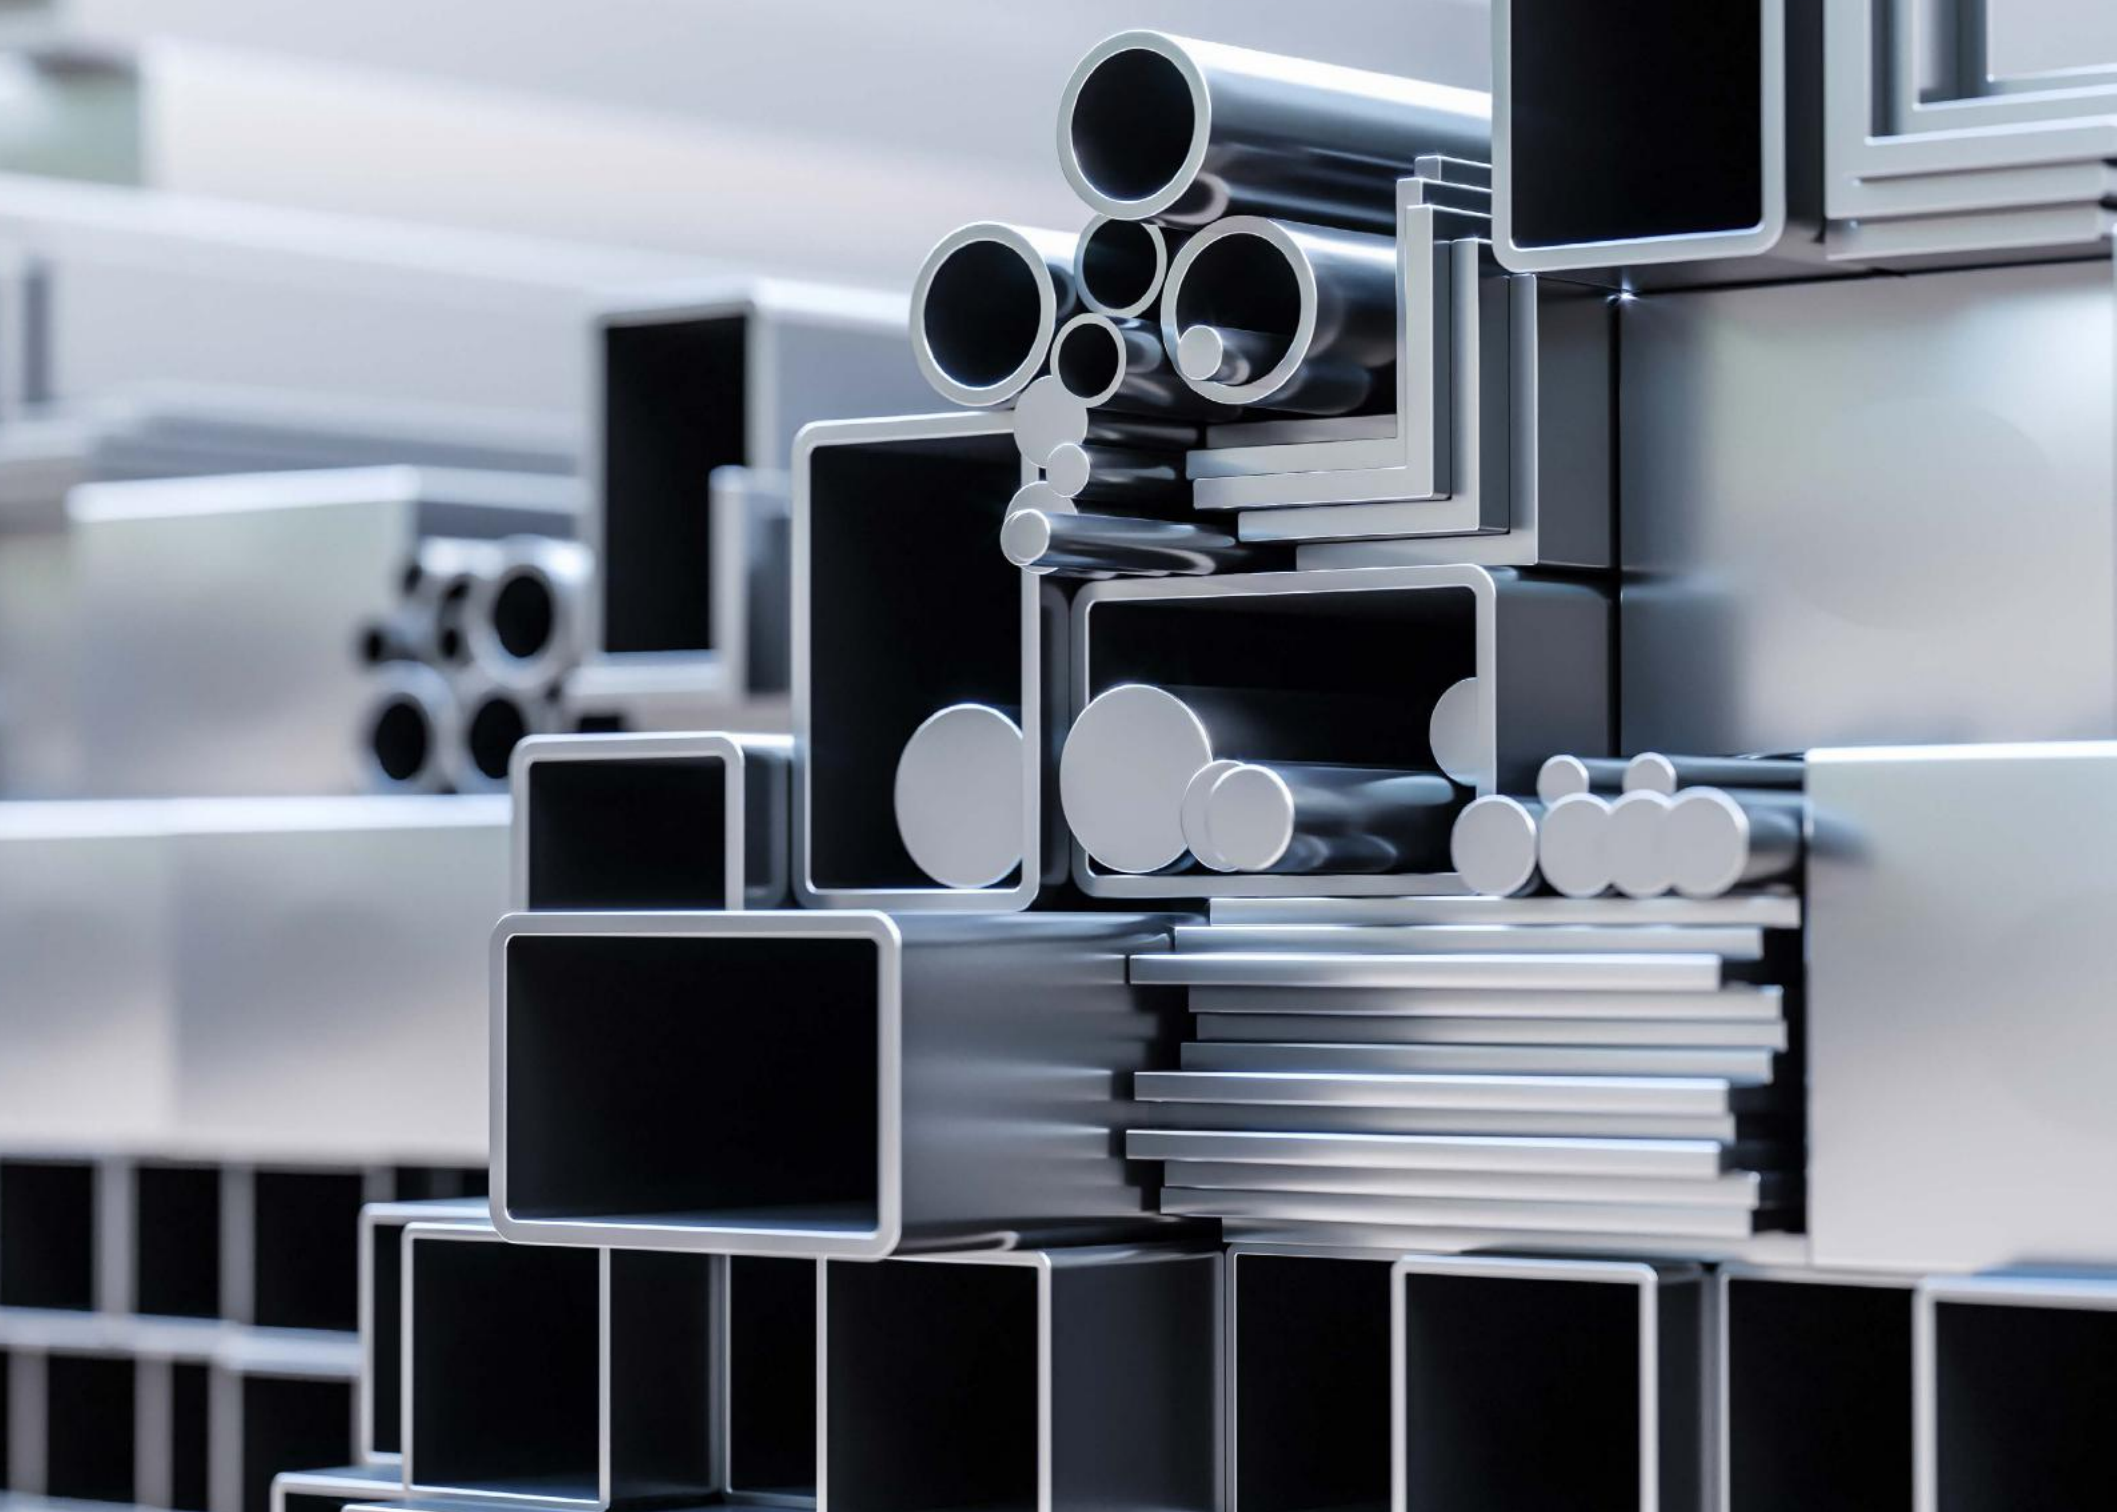

Digital printing indoor environments and interiors exhibition used. Including the use of the poster exhibition, art boards, advertising stands, Laytbaks types, projects, architecture and graphics, photo projects, Scale Modeling, stands and more. The complex is equipped with a digital printing device for printing on paper, canvas, Trsprnt metallized paper, banner, Bklayt, film, glossy paper, PVC and paper industries.

Arka company has the world's most advanced and updated digital printing devices, and with systems calibrated color prints with matching tiles our products, and using the best type of ink, paper and laminating film will offer their services.

Waranty

ARKA complex in addition to extensive activities in order to improve product quality, provide after-sales service is also inevitable and imperative. Services that pay significant costs, it assumes responsibility for them. That is why the products of Areca htwo year support and after-sales service is possible and this is the distinction between us and competitors.
