# COMPANY OVERVIEW

## Company Overview

Established in 2002, Taknam has leveraged modern technical expertise, advanced machinery, and a skilled workforce to become a leading producer of high-quality charcoal. With a strong commitment to delivering top-tier products that meet international standards, the company has quickly earned a prominent position in both domestic and international markets.

Taknam's exports to nine countries across the Middle East have positioned it as one of the largest charcoal producers and exporters in the nation.

By upholding customer-centric values and pursuing continuous improvement, Taknam is committed to sustainable growth and aims to be recognized as one of the most trusted brands in the charcoal industry.

## Competitive Advantages

Taknam is not merely a charcoal manufacturer; it is an innovator and solution provider dedicated to effectively meeting customer needs in its field of expertise. The company's key competitive advantages include:

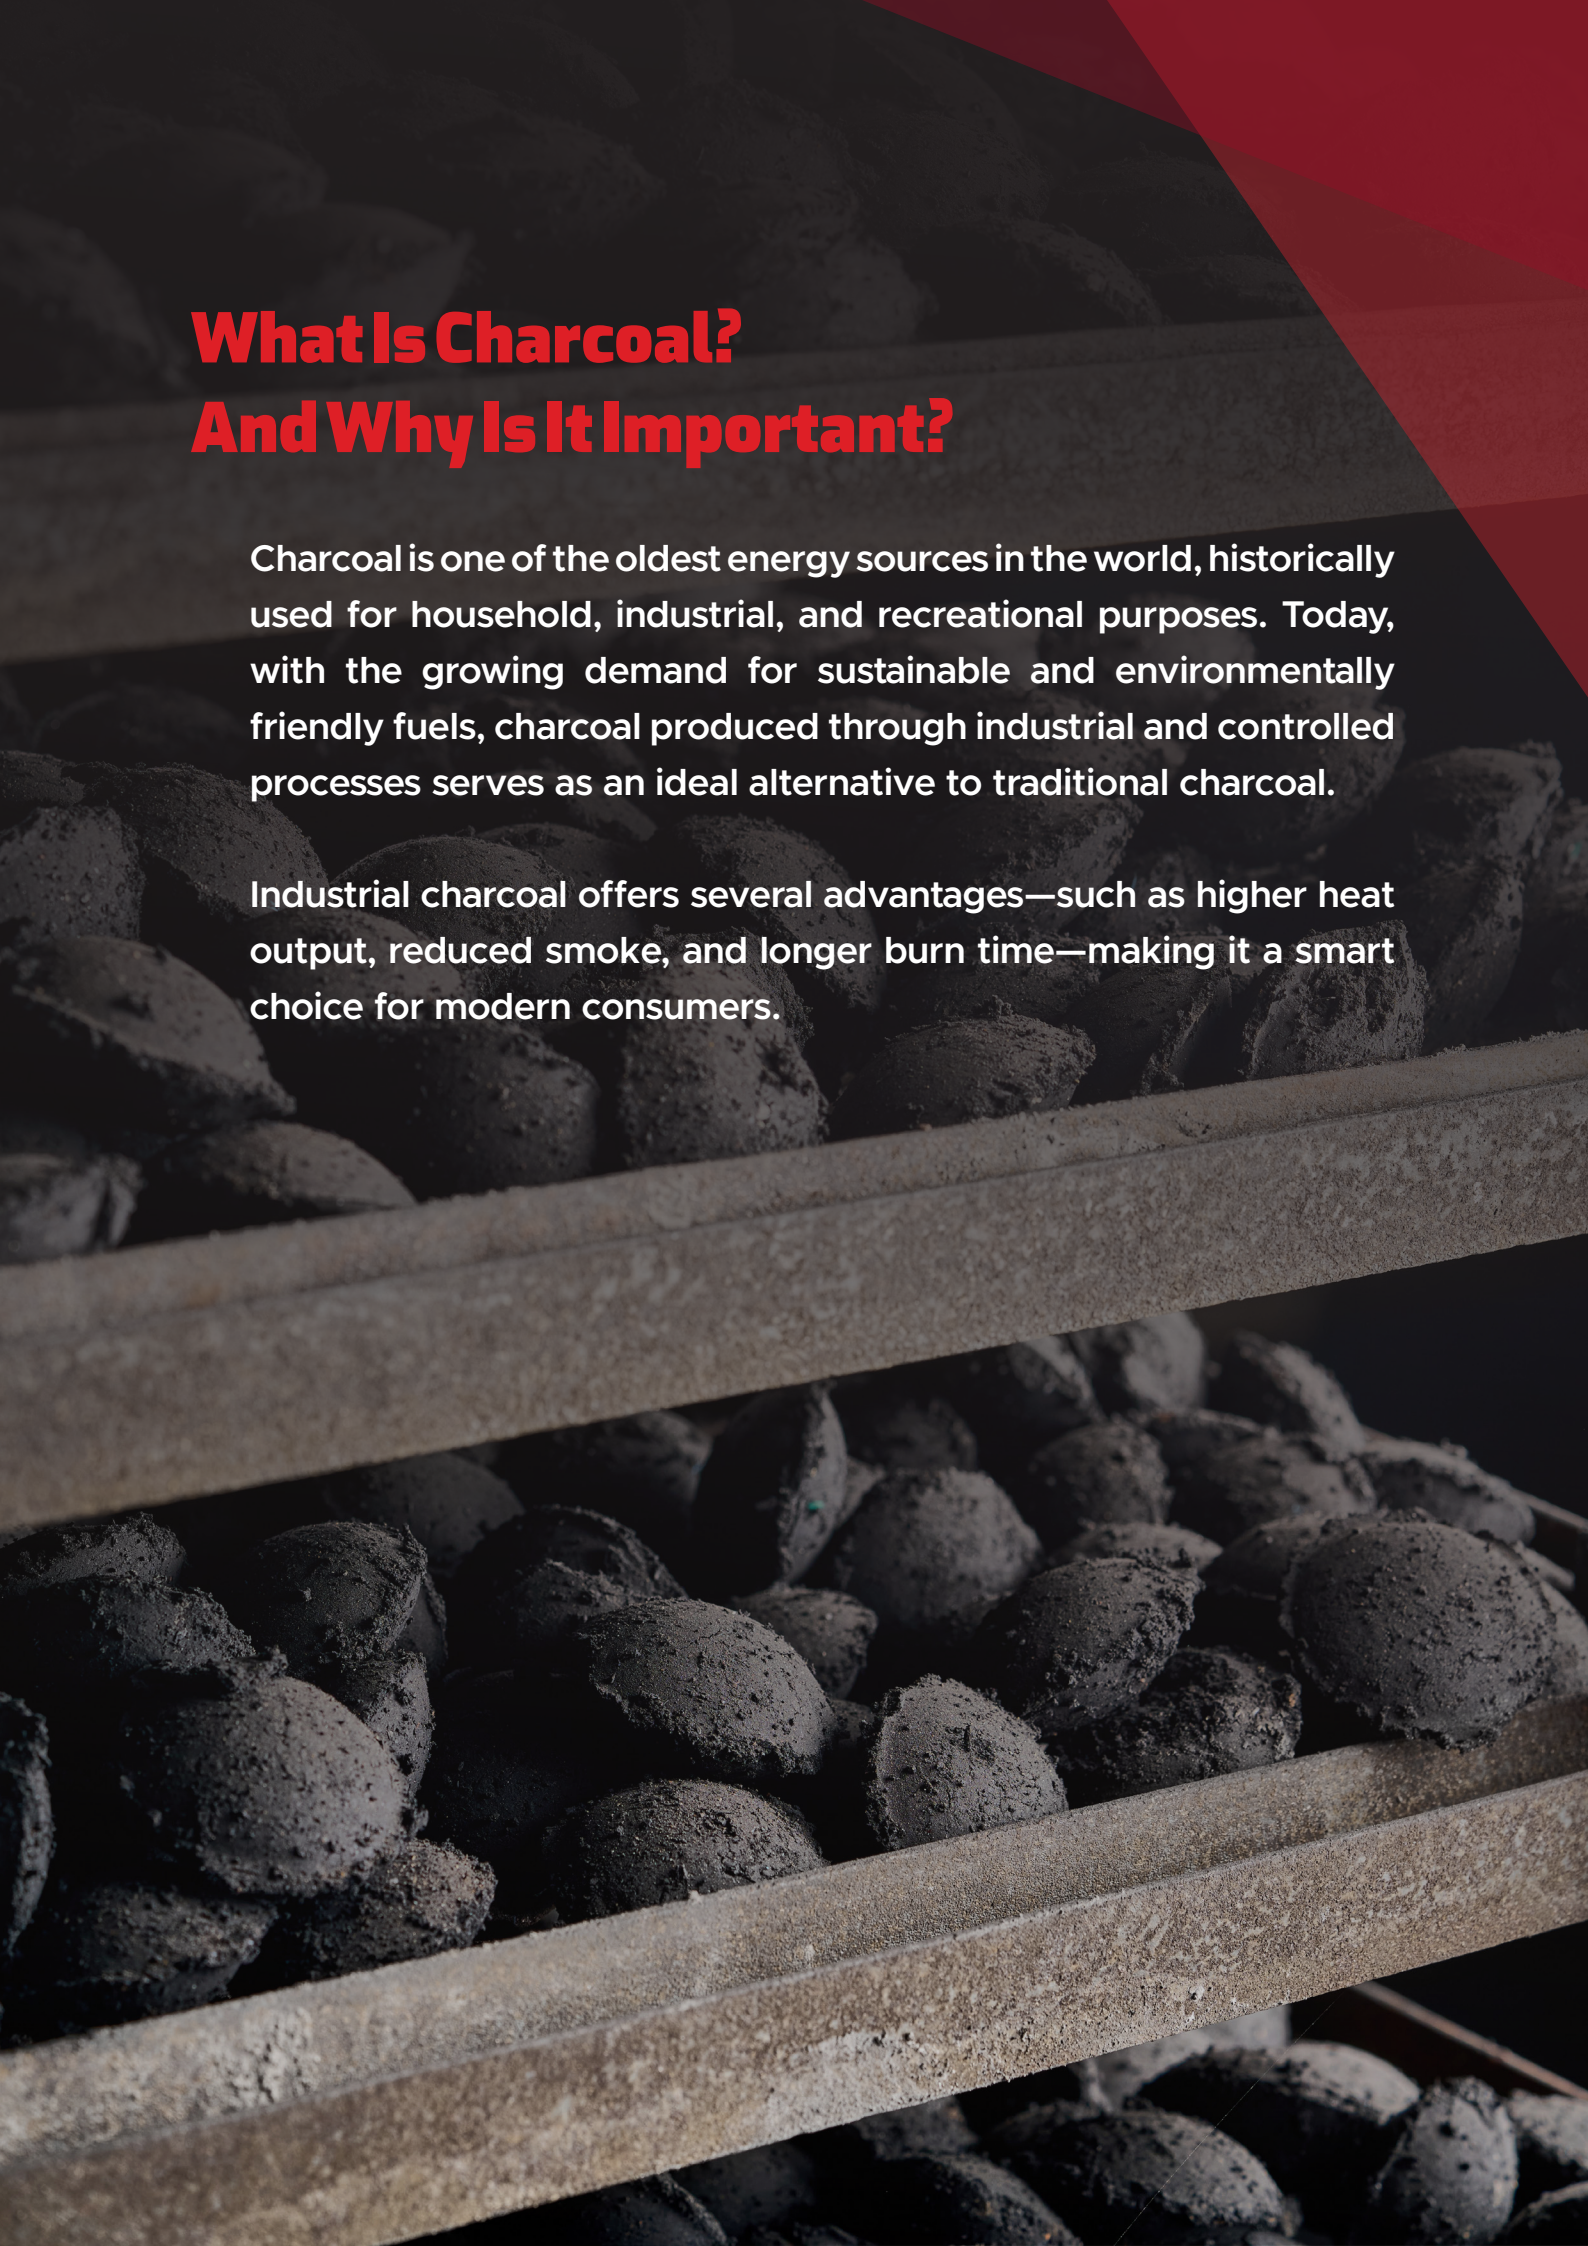

- Utilization of premium, all-natural raw materials, in line with the brand's motto: Taknam — Natural and sustainable.
- Implementation of industrial and optimized production processes
- Consistent quality control at every stage of production
- High-volume production capacity with diverse packaging options
- Strong export capabilities and proven experience in international markets
  - A fully equipped laboratory featuring the latest global technologies
- Strategic partnerships with universities and higher education institutions across the country

# What Is Charcoal? And Why Is It Important?

Charcoal is one of the oldest energy sources in the world, historically used for household, industrial, and recreational purposes. Today, with the growing demand for sustainable and environmentally friendly fuels, charcoal produced through industrial and controlled processes serves as an ideal alternative to traditional charcoal.

Industrial charcoal offers several advantages—such as higher heat output, reduced smoke, and longer burn time—making it a smart choice for modern consumers.

# Product Introduction

Taknam offers a diverse range of charcoal products tailored to market demands and customer preferences.

## QUICK-LIGHT CHARCOAL

For barbecue

(Weight 2 kg, 6 bags in a box)

# Certifications & Standards

At Taknam, quality is a core principle. The company has demonstrated its commitment to producing safe and standardized products by obtaining several internationally recognized certifications.

Key certifications and recognitions include:

- CE Certification – Product export compliance for Asian and European markets
- Environmental Stewardship Award – Issued by the Tehran Province Department of Labor, Cooperatives, and Social Welfare
- Top Provincial Cooperative Award – Presented by the Tehran Governorate

It is worth emphasizing that no achievement is accidental. Every success is the result of relentless effort, deep passion, and unwavering belief in our values and capabilities.
