The Fragrant Essence of Wellness!

## OUR STORY:

As we know, modern lifestyles have led to severe physical and mental health crises. Air pollution, processed foods, unhealthy habits, tobacco, and lack of physical activity place immense pressure on the mind, body, and even the soul. Athletes resort to high-risk supplements, and the prevalence of autoimmune, respiratory, spinal, fertility, liver, diabetes, and even mental disorders is on the rise.

People today are constantly exposed to harmful radicals and immune-disrupting agents. Beauty concerns surrounding skin and hair have become increasingly complex. Despite the flood of advanced equipment and treatments, true healing remains out of reach. The quality of life and health culture has always been under serious threat.

At Healer Global, our core concern has been: Can we find a solution that promotes a healthy life while aligning with modern scientific discoveries? Our first step was forming a research team focused on natural products such as honey, saffron, rare herbs, algae, mushrooms, caviar, and more. Among our greatest challenges was Royal Jelly, whose nanoparticles, enzymes, and microelements would quickly lose their miraculous properties once extracted. Stabilizing this substance became our breakthrough and led to the creation of the remarkable product we proudly offer today.

Years of research and dedicated effort have borne results. Today, we are proud to say that—thanks to cutting-edge science—we've developed premium, natural products with two main features:

They create a deep, side-effect-free impact on the body and mind and serve as powerful supplements.

In many cases, they assist in managing health issues, and in numerous others, they play a preventive role against biological challenges.

## ABOUT THE COMPANY:

Healer Global is proud to introduce itself as a pioneer in the production and distribution of natural dietary supplements based on bee products and rare medicinal herbs. Our core goal is to become a global, quality-driven brand in the field of healthy and elevated living.

## OUR MISSION:

We believe true wellness is born from nature. Our mission is to deliver authentic, organic, and effective products that enhance inner health and outer beauty. While we are loyal to nature and tradition, every step we take is grounded in laboratory data and scientific analysis.

As you may know, we are the first company in the world to successfully stabilize Royal Jelly. We are honored to hold an exclusive patent for this innovation, allowing us to produce and distribute our premium-quality products globally.

## OUR AWARDS & CERTIFICATIONS:

HACCP: Product Safety & Quality Control Certification  
ISO 22000: Food Production Quality Certification  
ISO 9001: Quality Management Certification  
Gold Medal – Geneva International Invention Fair 2024

National Award – Entrepreneur of the Year (Iran, 2024)  
Membership – International Federation of Elite Inventors (IFEA)  
Halal Certification – Islamic Global Food Safety

# HEALTH PRODUCT LINE:

Our Royal Jelly, with its silky texture, rejuvenates tired cells and shields the skin against aging. With this product, vitality and immunity go hand-in-hand.

HEALTH Royal Jelly – Stabilized with Organic Formula  
Royal Jelly, known as the exclusive food of queen bees and larvae, contains 178 nutrients and a key component called 10HDA, making it one of the most powerful natural supplements in existence.

Composition:

### -10HDA: The Regenerator

The key compound 10HDA plays a vital role in cellular rejuvenation, child development, and stem cell activation, according to scientific studies.

Royal Jelly's antioxidants offer anti-cancer properties, while its amino acids, vitamins, and minerals enhance immune function, collagen production, and wound healing.

## SCIENTIFIC PROFILE – ROYAL JELLY (ROYALACTIN):

Proteins & Peptides: %۱۵–۱۲, including major royal jelly proteins (MRJPs)

Natural Sugars: Glucose and Fructose

-Key Compounds in HEALTH Royal Jelly

Lipids:

۱۰-Hydroxy-۲-Decenoic Acid (۱۰HDA) – renowned for its antibacterial and anti-inflammatory properties.

Vitamins:

B<sub>1</sub>, B<sub>2</sub>, B<sub>3</sub>, B<sub>5</sub>, B<sub>6</sub>, B<sub>7</sub>, B<sub>9</sub>, D, K

Minerals:

Calcium, Copper, Iron, Magnesium, Phosphorus, Potassium, Silicon, Zinc

Hormones:

Testosterone, Progesterone, Prolactin

Enzymes:

Glucose Oxidase – with strong antimicrobial activity

Phenolic & Antioxidant Compounds:

Eliminate free radicals and reduce oxidative stress

Other Active Ingredients:

Free amino acids, nucleotides, and other bioactive compounds

20% Organic Stabilizer Blend  
80% Pure Royal Jelly

# HEPO:

A revolutionary fusion of Stabilized Royal Jelly and Spirulina Algae – a powerful daily supplement for athletes and children. Why Spirulina?

Known globally as a superfood and future food, Spirulina is a protein-rich, organic supplement packed with essential nutrients. When combined with Royal Jelly, its impact multiplies—resulting in an elite natural supplement.

Composition:

## -Benefits:

Spirulina is the richest known natural protein source, containing Arginine, Gamma-Globulin, and Albumin, making it ideal for athletes and growing children.

High in iron and calcium, it's beneficial for anemia and osteoporosis.

Combined with Royal Jelly, it boosts metabolism and supports fat burning.

HEPO

## SPIRULINA'S NUTRITIONAL PROFILE:

70% Protein, including all essential amino acids

Vitamins: B1, B2, B3, B6, B9, B12, C, E, K

Minerals: Iron, Magnesium, Potassium, Calcium, Zinc, Selenium, Phosphorus, Copper

Essential Fatty Acids: Gamma-Linolenic Acid (GLA), Omega-3, Omega-6, Omega-9

Antioxidants: Phycocyanin, Chlorophyll, Beta-Carotene

Polysaccharides & Dietary Fibers

Bioactive Compounds:

Phenolics, Flavonoids, Sulfated Polysaccharides, Spirulan, and Bioactive Peptides

# HEGO:

Cleanse and support your heart & liver naturally – a blend so powerful, it amazes our customers.

## Benefits:

Rich in polysaccharides and antioxidants that boost the immune system and help reduce harmful cholesterol levels

Promotes cardiovascular health and supports liver function

Contains unsaturated fatty acids and sterols that help regulate cholesterol and blood pressure

HEGO

## GANODERMA PROFILE (GANODERMA LUCIDUM):

Beta-Glucans: Strengthen immunity and support cancer resistance

Triterpenoids / Ganoderic Acids: Anti-inflammatory, anti-allergic, cholesterol-lowering

Proteins & Peptides: Provide essential amino acids, support metabolism

Antioxidants: Phenolic & flavonoid compounds to combat oxidative stress

Vitamins & Minerals: B-complex, Vitamin D, Potassium, Calcium, Magnesium

Ganoderma is renowned for supporting blood pressure regulation, liver detoxification, and preventing liver cirrhosis.

# HEATAKE:

Your natural defense against viruses and oxidative stress –  
Powered by Royal Jelly & Shiitake Mushroom.

Why Shiitake?

Shiitake mushrooms are rich in antiviral and antibacterial compounds, making them a promising natural remedy for viral infections like HPV. When paired with Royal Jelly, the effects are significantly enhanced.

HEATAKE

## SHIITAKE PROFILE (LENTINULA EDODES):

Polysaccharides: Lentinan and Beta-glucans – boost immunity and have anticancer potential

Eritadenine: Reduces cholesterol levels

Vitamins: Rich in B-complex and Vitamin D

Minerals: Selenium, Zinc, Copper, Magnesium, Phosphorus, Potassium

Amino Acids: Lysine, Valine, Isoleucine

Antioxidants: Phenolic & flavonoid compounds

Triterpenoids: Anti-inflammatory and antiviral agents

Shiitake mushroom is a powerhouse of antioxidants that improve metabolism, immune function, and overall wellness.

# HEBREE:

Advanced Daily Support for Sexual Wellness & Fertility

For both women and men

We present the ideal daily supplement to support sexual health and fertility through a unique formulation that combines male palm tree pollen (Tarooneh) with stabilized royal jelly.

How HEBREE Works

The presence of terpenoids, flavonoids, and tannins in Tarooneh helps to:

Enhance sexual desire

Regulate body temperament (humoral balance)

Stabilize blood pH levels

Improve sexual function in both genders

Increase sperm count

Support ovarian health, especially in cases of reduced activity

Ultimately improve reproductive performance and vitality

Benefits:

Enhances libido, fertility, and helps treat ovarian dysfunction

Volatile oils (pulegone, menthone, piperitone, limonene) offer antimicrobial and anti-inflammatory benefits

Terpenoids and flavonoids reduce oxidative stress and support hormonal balance

Tannins and phenolic compounds provide antioxidant, astringent, and anti-inflammatory effects

Improves sexual performance, increases sperm count, and supports female reproductive health

Helps balance body temperament and regulate blood pH

HEBREE

## BIOACTIVE COMPOUNDS IN TAROONEH:

Volatile oils including compounds such as pulegone, menthone, piperitenone, and limonene – known for their antimicrobial and anti-inflammatory properties

Terpenoids, offering anti-inflammatory and antioxidant effects

Flavonoids, powerful antioxidants that help reduce oxidative stress

Tannins, with astringent and antimicrobial activity

Phenolic compounds, providing both antioxidant and anti-inflammatory benefits

Vitamins and minerals, especially vitamin C, potassium, and calcium

10% Male Palm Tree Pollen (Tarooneh)

# HEBELL:

## Simplifying Blood Sugar Regulation

If managing your blood sugar has been a challenge, we've made it easier for you.

HEBELL is a powerful formulation combining stabilized royal jelly with the traditional Echinophora plant (commonly known as bogenagh) — a natural remedy renowned for its ability to support diabetes management and enhance insulin sensitivity.

The addition of royal jelly significantly improves the absorption and effectiveness of Echinophora, amplifying its therapeutic benefits.

## How HEBELL Supports Blood Sugar Health

The phenolic and flavonoid compounds in bogenagh help increase the body's insulin sensitivity and reduce insulin resistance. Scientific studies have shown that regular use of this remarkable formulation, due to its specialized components, can significantly aid in diabetes management and blood sugar control.

## Active Compounds in Echinophora:

**Phenolic compounds**, including phenols and flavonoids, known for their strong antioxidant properties

**Volatile oils**, containing aromatic components like alpha-pinene, beta-pinene, limonene, and myrcene, which provide antimicrobial and anti-inflammatory effects

**Terpenoids**, recognized for their anti-inflammatory and anti-cancer properties

**Coumarins**, offering anticoagulant and anti-inflammatory benefits

**Tannins**, with astringent and antimicrobial effects

**Vitamins and minerals**, including vitamin C, potassium, and calcium

**Dietary fiber**, supporting digestion and gut health

90% Stabilized Royal Jelly (HEALTH)  
10% Echinophora Plant Extract  
(Botanical Name: Echinophora)

Healer Global

# HEFEL:

A powerful mix of ginseng, truffle mushroom, and stabilized royal jelly.

The combination of ginseng and truffle with stabilized royal jelly is highly energizing and promotes increased muscle building in the body.

The active compounds in ginseng act as adaptogens, helping the body resist stress while improving brain function, focus, and memory.

The unique blend of royal jelly, ginseng, and truffle mushroom—due to its rich proteins and superior compounds—boosts energy, reduces lactic acid in muscle tissue (thus minimizing post-workout soreness), significantly enhances muscle growth, and prevents muscle degradation.

## Truffle Mushroom (Truffle) Components:

**Proteins and amino acids**

**Carbohydrates**, including polysaccharides like glucans that may boost the immune system

**Fats**, containing unsaturated fatty acids such as oleic acid and linoleic acid

**Vitamins**, a rich source of B vitamins and vitamin C

**Minerals**, rich in potassium, phosphorus, calcium, and magnesium

**Aromatic compounds**, responsible for truffle's unique scent

**Antioxidants**, containing compounds like phenols and flavonoids that help combat free radicals

## Ginseng Components:

**Ginsenosides**, which act as adaptogens and help the body cope with stress

**Polysaccharides**, with immune-boosting and anti-inflammatory properties

**Vitamins**, including B vitamins and vitamin C

**Minerals**, including potassium, calcium, magnesium, and zinc

**Antioxidants**, which help reduce oxidative stress

**Amino acids**, essential for protein synthesis

**Terpenoids and sterols**, compounds that support nervous and cardiovascular system performance

80% Stabilized Royal Jelly (HEALTH)  
10% Truffle Mushrooms  
10% Ginseng

Healer Global

# HEHEALTH:

Our fully organic antibiotic – with you in every joyful moment of life.

Propolis Extract:

Propolis is a substance produced by honeybees to seal and protect their hives. It is known as one of the most powerful natural antibiotics ever discovered. It supports the body's overall detoxification and immunity.

HEHEALTH Thanks to its unique composition of phenolic compounds, flavonoids, and natural enzymes, our propolis extract is considered one of the most potent natural antibiotics. Unlike chemical antibiotics, propolis does not dry out the glands. Studies have shown that continued use of propolis extract does not lead to bacterial or microbial resistance, making it a safe long-term solution.

HEHEALTH

## MAIN COMPONENTS OF PROPOLIS:

Phenolic and flavonoid compounds such as ferulic acid, cinnamic acid, quercetin, galangin, and pinocembrin

Chrysin – known for its antioxidant, anti-inflammatory, and antimicrobial effects

Resins and gums collected from plants and trees by bees

Beeswax

Unsaturated fatty acids – oleic acid, linoleic acid, palmitic acid

Terpenes – beta-caryophyllene and ar-turmerone with anti-inflammatory and antimicrobial properties

Vitamins – B-complex and vitamin E

Minerals – zinc, magnesium, calcium, and iron

Enzymes – glucose oxidase with antimicrobial activity

Aromatic compounds and essential oils – natural plant-based antimicrobials and antifungals

Other bioactive compounds – alkaloids, sterols, polysaccharides

Natural propolis extract  
with 70% purity

# HEBEST:

The miraculous 12-in-1 topical cream – completely natural, for radiant and youthful skin.

This all-organic cream is a multifunctional skin treatment designed to: ✓ Deeply hydrate ✓ Eliminate eczema ✓ Fade pigmentation and dark spots ✓ Brighten skin tone ✓ Repair damaged skin ✓ Boost collagen production ✓ Rejuvenate and enhance skin elasticity ✓ Smooth wrinkles ✓ Heal wounds ✓ Treat burns ✓ Detoxify the skin ✓ Leave your skin glowing and revitalized

Key Ingredients: Aloe Vera Gel + Stabilized Royal Jelly

Aloe Vera – one of nature's most extraordinary plants for skin rejuvenation – is highly regarded for its abilities to stimulate collagen production, heal wounds, and act as a powerful natural brightener. When combined with stabilized Royal Jelly, the skin-regenerating effects of Aloe Vera are significantly amplified.

Formula Composition:

Why HEBEST is Exceptional

Royal Jelly is a powerful natural collagen booster, and when paired with Aloe Vera, the two create a synergy that leads to rapid skin renewal.

This cream not only brightens your complexion but also improves elasticity and fades dark spots and blemishes effectively.

Continuous use results in visibly younger, clearer, and more luminous skin.

HEBEST

## ACTIVE COMPOUNDS IN ALOE VERA:

Polysaccharides (e.g., acemannan): promote skin healing, support wound recovery, and strengthen the immune system

Vitamins: A, B1, B2, B3, B6, B12, folic acid – vital for skin health and overall wellness

Minerals: calcium, magnesium, zinc, chromium, selenium, sodium, potassium, copper – essential for bodily functions

Enzymes: amylase, lipase – aid digestion and cellular activity

Amino Acids: contains all 20 essential amino acids – necessary for protein synthesis and tissue regeneration

Antioxidants: rich in phenolic compounds and flavonoids – combat oxidative stress and free radicals

Fatty Acids: includes omega-3 and omega-6 – known for anti-inflammatory effects

Anthraquinones: such as aloin and emodin – possess antimicrobial, anti-inflammatory, and mild laxative properties

Proteins and bioactive peptides – stimulate collagen synthesis and skin cell regeneration.

70% Health-grade Stabilized Royal Jelly

30% Pure Aloe Vera Gel

# HEPA:

Relieve joint pain and inflammation caused by arthritis and rheumatism.

A natural blend of Royal Jelly and organic herbs with strong anti-inflammatory properties, effective in alleviating rheumatoid arthritis, osteoarthritis, and general joint pain and inflammation.

## Ingredients:

80% Stabilized Royal Jelly (Health-grade)

Select organic herbs with anti-inflammatory properties

Proteins

Unsaturated fats

Fiber

Key vitamins

Essential minerals

Body-supportive antioxidants

This outstanding formula helps relieve joint pain and inflammation. With consistent use, it supports the improvement of arthritis and rheumatism. In addition, the antioxidants, vitamins, and minerals in Royal Jelly help enhance bone density and promote cartilage regeneration.

## CONTRAINDICATIONS:

This product is not recommended in the following cases:

Children under ۲ years of age

Pregnant or breastfeeding women

During chemotherapy or radiotherapy

Breast cancer (even post-treatment or post-mastectomy)

Individuals on immunosuppressive medications

Those taking Warfarin (a strong blood thinner)

Organ transplant recipients

Individuals with major thalassemia, Individuals who are allergic to bee products, hemophilia, thyroid conditions, or undiagnosed autoimmune diseases

## NOTE:

In all contraindicated cases, use is permitted only upon a physician's recommendation.

## FINAL NOTE:

The fact that you care so deeply about your health and beauty by choosing safe, organic, and highly effective products brings us great joy. You should be proud of yourself.

We will ensure your selected products are delivered to you promptly and safely.

Despite offering exclusive formulations, we've been extremely considerate with pricing, keeping our valued customers in mind.

We're honored when you introduce us to others, and we will show our appreciation in tangible ways.
